Agri-Food Expo' 17

*(A Program under Unnat Bharat
Abhiyan of Govt. of India)*

Workshop on Technologies for Skill Development and Entrepreneurship

24th – 26th February, 2017

Jointly Organized by

**Agricultural and Food Engineering Department
and
Rural Development Centre
Indian Institute of Technology
Kharagpur – 721302**

Introduction

Indian Institute of Technology Kharagpur has its proud association with the developmental process of the country. The Institute was established in 1951 to boost the technological upliftment by generating manpower armed with advanced technology knowhow along with other engineering and science departments. Agricultural & Food Engineering Department was started in 1952 to propagate the technological breakthrough in agricultural and allied fields, while the Rural Development Centre since its inception in 1975 is engaged in dissemination of the technological innovations in the rural areas. These two departments of the Institute have been regularly organizing Krishi Mela, Workshops, Field Days, Expositions etc. for the farmers and rural dwellers to provide a unique platform to the farmers, entrepreneurs, industries, financial institutions, government, semi-government, private and voluntary organizations, NGOs and technical experts to exchange their views on technological development in Agricultural and Rural Sectors.

This year the Agricultural & Food Engineering Department along with Rural Development Centre is organizing Agri-Food Expo' 17 and one day workshop on 'Skill Development and Entrepreneurship' (under Unnat Bharat Abhiyan program of GOI) during 24 to 26 February, 2017. Also a Three-day training programme in different areas as mentioned below to selected progressive farmers and educated unemployed rural youth.

Areas of training

- Operation, Maintenance and Repair of Farm Machinery & Farm Implements.
- Green House and Drip Irrigation Technology.
- Soil Testing.
- Vermi-composting Technology & Organic Farming.
- Fabrication of Grain Puffing machine and Modernized Huller Milling Technology.
- Food Processing and Preservation Technology.
- Small Scale Machines for Processing of Agricultural Products (Seed Oil Extraction, Pulse Dehusking, Spice and Grain Grinding, Tuber Starch Extraction).
- Leaf Plate Moulding, Rope and Thread Making, Improved Chulla Fabrication/Construction.
- Bio-fertilizers and Bio-pesticide Production Technology from Organic Wastes
- Mushroom Farming Technology.
- Production and Processing of Medicinal & Aromatic Plants.

Besides, demonstration of machinery processes and food processing technologies developed by IIT Kharagpur, industries, research laboratories and other organizations, lectures and discussions on 'Food Processing', 'Agricultural Techniques' and 'Water Management' etc. will be organized along with visits to Experimental Farms, Rural Energy Park and Science & Technology Entrepreneurship Park (STEP-IIT).

Participation details

Rural Unemployed Youth with Science/ Arts/ Commerce/ Agriculture background and a desire to become entrepreneur are eligible to participate in the program.

Registration Fee: ₹ 1500/-

Participants will be provided with boarding and lodging in the campus for the duration of the training.

The participants sponsored by organizations involved in rural and agro-based industries will be registered by waiving requisite qualification.

Sponsorship & Co-sponsorship

The organizations contributing ₹5,00,000/- will be given the status of Platinum Sponsors, ₹3,00,000/- Gold Sponsors and ₹1,50,000/- Silver Sponsors. Platinum, Gold and Silver Sponsors may send participants to the maximum number of 10, 5 and 2 respectively. Other sponsors will be acknowledged as per their contribution for sponsoring individual events of training etc.
